This book opened my eyes and changed my life forever!

September 12, 1998

By **A Customer**

I was born and raised in the Catholic church, was an altar boy and organized religious retreat programs for years, but not until I read this book did I realize what Christ did for us by His death and resurrection and what is really expected from me as a Christian. In addition, Gary Kah, once and for all, opened my eyes to the truths behind current world events and activities of world-wide organizations. I was so shocked by the contents of this book, that I dedicated hundreds of hours of my own time to independently research his sources (which are conveniently listed in the appendix). I was even more shocked when I discovered that everything he said was TRUTHFUL and VERIFIABLE! The deeper I dig, the more shocking it gets! Gary Kah's writing is only the catalyst for inciting a new awareness that all citizen's of the world must realize. READ THIS BOOK AND ENCOURAGE AS MANY OTHERS AS YOU CAN TO READ IT. Your time is limited!

Solidly researched, very well put together., March 3, 2006

By **TR France** (USA) - [See all my reviews](#)

Gary Kah really puts it together very well in his book. He takes disparate pieces of the puzzle and puts it together to show the big picture. He connects the economic, political, religious/New Age, and other links and puts it all together convincingly. Sometimes the perspective of a true insider makes all the difference. Kah is truly an insider. He provides impeccable credentials, as well as thorough footnotes and documentation of the facts. Case closed. This is a book that insiders dont want you to read.

Very well done. This New World Order thing is a lot further along than some people might think.

globalized, January 25, 2003

By **maiden pa. "gammaraider"** (bedford, pa United States) - [See all my reviews](#)

Gary Kah has written a great book. He shows how the World Constitutional Parliamentary is writing a World Constitution. The global economic hook-up of nations as well as through treaties all link toward a world government. These treaties are an end run around our U.S. constitution and giving away our national sovereignty. He also knows people who attend these globalist meetings, that are very hard to get into. This book is worth reading and then lend it to a friend. The European Economic Union is just the start. Africa wants to unite and the far east nations as well. Uniting these nations brings economic and trade power. Not really a conspiracy, but more of a we want a piece of the action too. Don't forget to check out his other books on Amazon.

Pretty Good book!

I just finished reading it and I liked it! The reason I believe its not a 5 star book, is cause Kah lays it out pretty heavy... a little too heavy for me. [Read more](#)
