Product Description

The National Education Association is the driving force that channels - through public education - humanistic political and religious beliefs into the minds of the vast majority of our children.

From its inception, the NEA has copied the model of Russian and Chinese communist educational systems. Every parent, every patriotic American citizen, needs to be fully informed how present and future generations are being brainwashed to accept a universal dictatorial government.

This latest book by Dr. Cuddy is a bombshell.

About the Author

Dennis Laurence Cuddy, historian and political analyst, received a Ph.D. from the University of North Carolina at Chapel Hill (major in American History, minor in political science), and taught in the public school system and at the university level. Dr. Cuddy has also authored hundreds of articles appearing in newspapers around the nation, and served as a senior associate with the U.S. Department of Education in Washington. He has been a guest on numerous radio talk shows in various parts of the country, such as ABC-Radio in New York City, and he has also been a guest on the national television programs "USA Today" and CBS' "Nightwatch."
