Editorial Reviews

From [Booklist](#)

Moore's refusal to follow a court order to remove a Ten Commandments monument from the state court building cost him his position as chief justice of the Alabama Supreme Court. In this fascinating memoir, he reflects on his struggle to comply with the law and be true to his faith. His essential premise is that our Founding Fathers, via the Declaration of Independence, acknowledged the sovereignty of God in the life of our nation, notwithstanding the clause forbidding the establishment of a national religion. He notes the prominence of God in the swearing of oaths and other aspects of court procedures, as well as our nation's continuing Judeo-Christian traditions. Moore sees the efforts by the ACLU and other groups to remove all references to religion as a reflection of the nation's downward moral drift. His passion in asserting his own religious commitment reflects his personal courage in standing up for his beliefs, but for those who do not share them, he also makes a clear case for justifying the sanctions against him. *Vernon Ford*

Product Description

Chief Justice Roy Moore believes the state must acknowledge the moral principles on which America was founded and that it is not illegal to do so. While the separation of church and state may be a credible and legitimate tenet, it has been largely misconstrued and abused during the last forty years.

Moore was sworn to uphold the Constitution of the United States. His critics, both within conservative circles and without, have maintained that he violated the law by disobeying the order of a federal judge to remove a monument of the Ten Commandments. But

Moore brilliantly argues that those who have ordered him to violate his oath have, in fact, broken the law.

So Help Me God will articulate why he believes elected and appointed government officials have the right and the obligation to acknowledge God as the foundation of American government and jurisprudence.

Judge Moore for Supreme Court, November 8, 2005

By [John Cummins](#) (new market, tn United States) - [See all my reviews](#)

Wow, finally the whole story. It is hard to believe that men with as much courage, backbone, and strong morality still exist in America. This, folks, is the story of a modern American HERO. Nowadays, true heroes are ignored, blacklisted, put in jail, harassed, made fun of, and purposely misunderstood. Moore is no exception, as this story points out. In the meantime, I will be helping this man become the next governor of Alabama.

Highly Recommend This One, February 28, 2005

By [Brian Allan](#) (Florida) - [See all my reviews](#)

Chief Justice Roy Moore is one of the most articulate crusaders for the rule of law on the scene today. This book does a great job of clarifying why elected leaders have an obligation to uphold America's God-based governmental and judicial structure. Whether we like it or not there's overwhelming evidence that our system of American govt. is deity inspired, and just because some may now choose not to "believe" doesn't authorize elected officials to change the original charter.

I Could Not Put It Down, February 28, 2005

By [Mark Sutherland](#) (St. Louis, MO) - [See all my reviews](#)

This book weaves a riveting personal history with principles we should all know. A must read for anyone who values religious freedom and limited government.
